

**15-10-420. Procedure for calculating levy.** (1) (a) Subject to the provisions of this section, a governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3 years. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the current year's value of newly taxable property, plus one-half of the average rate of inflation for the prior 3 years.

(b) A governmental entity that does not impose the maximum number of mills authorized under subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between the actual number of mills imposed and the maximum number of mills authorized to be imposed. The mill authority carried forward may be imposed in a subsequent tax year.

(c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers, using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of labor.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit, including newly taxable property.

(3) (a) For purposes of this section, newly taxable property includes:

- (i) annexation of real property and improvements into a taxing unit;
- (ii) construction, expansion, or remodeling of improvements;
- (iii) transfer of property into a taxing unit;
- (iv) subdivision of real property; and
- (v) transfer of property from tax-exempt to taxable status.

(b) Newly taxable property does not include an increase in value that arises because of an increase in the incremental value within a tax increment financing district.

(4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the release of taxable value from the incremental taxable value of a tax increment financing district because of:

- (i) a change in the boundary of a tax increment financing district;
- (ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or
- (iii) the termination of a tax increment financing district.

(b) If a tax increment financing district terminates prior to the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax increment financing district terminates. If a tax increment financing district terminates after the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the following tax year.

(c) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale of real property that results in the property being taxable as class four property or as nonqualified agricultural land as described in 15-6-133(1)(c).

(5) Subject to subsection (8), subsection (1)(a) does not apply to:

- (a) school district levies established in Title 20; or
- (b) the portion of a governmental entity's property tax levy for premium contributions for group benefits excluded under 2-9-212 or 2-18-703.

(6) For purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.

(7) In determining the maximum number of mills in subsection (1)(a), the governmental entity may increase the number of mills to account for a decrease in reimbursements.

(8) The department shall calculate, on a statewide basis, the number of mills to be imposed for purposes of 15-10-107, 20-9-331, 20-9-333, 20-9-360, 20-25-423, and 20-25-439. However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections. The mill calculation must be established in whole mills. If the mill levy calculation does not result in a whole number of mills, then the calculation must be rounded up to the nearest whole mill.

(9) (a) The provisions of subsection (1) do not prevent or restrict:

- (i) a judgment levy under 2-9-316, 7-6-4015, or 7-7-2202;

- (ii) a levy to repay taxes paid under protest as provided in 15-1-402;
- (iii) an emergency levy authorized under 10-3-405, 20-9-168, or 20-15-326; or
- (iv) a levy for the support of a study commission under 7-3-184.

(b) A levy authorized under subsection (9)(a) may not be included in the amount of property taxes actually assessed in a subsequent year.

(10) A governmental entity may levy mills for the support of airports as authorized in 67-10-402, 67-11-301, or 67-11-302 even though the governmental entity has not imposed a levy for the airport or the airport authority in either of the previous 2 years and the airport or airport authority has not been appropriated operating funds by a county or municipality during that time.

(11) The department may adopt rules to implement this section. The rules may include a method for calculating the percentage of change in valuation for purposes of determining the elimination of property, new improvements, or newly taxable property in a governmental unit.

**15-10-425. Mill levy election.** (1) A county, consolidated government, incorporated city, incorporated town, school district, or other taxing entity may impose a new mill levy, increase a mill levy that is required to be submitted to the electors, or exceed the mill levy limit provided for in 15-10-420 by conducting an election as provided in this section.

(2) An election conducted pursuant to this section may be held in conjunction with a regular or primary election or may be a special election. The governing body shall pass a resolution, shall amend its self-governing charter, or must receive a petition indicating an intent to impose a new levy, increase a mill levy, or exceed the current statutory mill levy provided for in 15-10-420 on the approval of a majority of the qualified electors voting in the election. The resolution, charter amendment, or petition must include:

- (a) the specific purpose for which the additional money will be used;
- (b) either:
  - (i) the specific amount of money to be raised and the approximate number of mills to be imposed; or
  - (ii) the specific number of mills to be imposed and the approximate amount of money to be raised; and
- (c) whether the levy is permanent or the durational limit on the levy.

(3) Notice of the election must be prepared by the governing body and given as provided by law. The form of the ballot must reflect the content of the resolution or charter amendment and must include a statement of the impact of the election on a home valued at \$100,000 and a home valued at \$200,000 in the district in terms of actual dollars in additional property taxes that would be imposed on residences with those values if the mill levy were to pass. The ballot may also include a statement of the impact of the election on homes of any other value in the district, if appropriate.

(4) If the majority voting on the question are in favor of the additional levy, the governing body is authorized to impose the levy in either the amount or the number of mills specified in the resolution or charter amendment.

(5) A governing body, as defined in 7-6-4002, may reduce an approved levy in any fiscal year without losing the authority to impose in a subsequent fiscal year up to the maximum amount or number of mills approved in the election. However, nothing in this subsection authorizes a governing body to impose more than the approved levy in any fiscal year or to extend the duration of the approved levy.
